

Buenos Aires, December 15, 2008

Subject: Commendation for advisory and consulting services provided to NOVAIDEA

To whom it may concern:

I am pleased to commend Mr. Oliver Schmid of 4954 IT Consulting, LLC of Dacula, GA (USA) for his outstanding advisory and consulting services provided to NOVAIDEA of Buenos Aires (Argentina), from November 2007 until November 2008. NOVAIDEA was contracted by PETROBAS Argentina during a SAP Roll-Out to develop an add-on solution to SAP to calculate and report royalties to the Argentinean government during the process of oil extraction and oil refinery.

Mr. Schmid had a valuable impact on the success of the project, not only due to his overall business process knowledge and common sense approach, but also through his SAP Process skills and know-how. Mr. Schmid has been able to present creative ideas and communicate its benefits. He has been respected and well liked by the people at NOVAIDEA and his participation allowed for a successful project completion that was on time and on budget.

NOVAIDEA is looking forward to work with Mr. Schmid or his organization 4954 IT Consulting, LLC in the future, if the according opportunity should arise.

Beyond his professional capabilities, his constant disposition to search knowledge, his objectives to improve himself and his personal behavior have won my affection and professional respect.

I highly recommend Mr. Schmid to you for whatever position he may decide to take up next. He is the type of colleague that anyone would be happy to work with. If you would like further elaboration, feel free to contact me.

Cordially,

Amalia Bañuelos
Director
