## Home Health Partners: Beating the Employment Turnover Odds

**Bristow, Oklahoma – 10-6-08**

According to the Bureau of Labor Statistics, a survey recently found that the average length of employment for any given company is 2-5 years. Home Health Partner's employees are the exception to these odds. With 14 of their employee's recently celebrating employment anniversaries, Home Health Partners found there has been 100 years of service between these employees. "That is an average of 7.2 years to the national average of 3.2!" says Deb Cupps, Home Health Partner's Regional Director.

When asked why she thinks her employees beat the national average length of employment by such a large margin, Cupps replied, "There is a Pearl S. Buck quote that I like. *"The real secret of joy in work is contained in one word: excellence. To know how to do something well is to enjoy it"*. Our Home Health employees excel at helping our patients recover from illness and injury. They are all local professionals who have chosen to take care of the people in their communities. They are compassionate, caring and highly skilled at what they do whether it is an aide giving a bath, or a therapist teaching someone to walk again. I think the longevity of our employees is directly related to the joy they find in their work and the supportive environment they find that allows them to do what they do best. We are richly blessed to have employees that have been here for so long. They are a great asset to HH Partners and are very much appreciated."

### About Bristow Medical Center Home Health

Home Health Partners is a Medicare certified Home Health agency with branches through Bristow Medical Center, Cleveland Area Hospital, and Fairfax Memorial Hospital. Home Health Partners is staffed locally through each hospital and provides each of their communities with services such as skilled nursing, physical therapy, occupational therapy, speech therapy, a licensed social worker, certified home health aides, and one of Oklahoma's few wound care specialists.

Bristow Medical Center's Home Health division has been serving Bristow, OK and surrounding communities since 1993, and currently employs 10 nurses and 7 therapists. The mission Home Health Partners is "Local people taking care of local people at home. Supporting the community and believing it is our job to create a positive environment where healing can occur and wellness is promoted."
