Keep your kids safe online

Parents want to **keep kids safe**. Kids want the **freedom to explore** on their own. With Canopy, your family can have both.

THE BEST OF CANOPY

- Artificial intelligence seamlessly removes pornographic images and videos in real-time.
- You don't need the login email and password for every social media account your child uses to protect them.
- Allow your kids to use social media websites safely.
- Parent in the digital world just like you do in the real one with our website and app management tool.
- Let Canopy encourage wise choices by prompting your kids to delete questionable photos before they are shared.
- Prevent explicit content from reaching the screen so kids can explore freely and you can have peace of mind.
